

SYSTEM AND METHOD FOR DENOTING AND COMMUNICATING WITH  
COMPUTER NETWORK MOBILE SITES

ABSTRACT OF THE DISCLOSURE

A system for, and method of, denoting and communicating with  
5 a computer network site and a computer network incorporating the  
system or the method. In one embodiment, the system includes: (1)  
an address parser that makes a determination of whether the site is  
a mobile site from an address of the site and (2) a communications  
manager that manages communication with the site based on the  
10 determination.
